Flour in tiu. Lard, Crushed Sugar, &c., &c. To the Farmer and Dealers in

Agricultural Implements. PLEASE READ.—Having erected a good shop, with facilities not heretofere possessed by any in this State for manufacturing Agricultural Implements, I beg leave to announce that I am now properly under way with that business. I cm pley none but the best and most experienced mechanics, and work no material but the best. In this way I hope to promote the interest of the good mechanic, the interest of the farmer, the interest of our young and growing Agricultural State, and at the same time that interest which is foremost with all mankind—self. I have had twenty years' experience in the manufacturing bastness; I established the first shop, and made the first steel plow in the State of Wisconsin, in the dawn of her day of great agricultural improvement. I also made the first Reaping and Mowing machine, and the first steel plow ever made in this State. Therefore, with my experience and a knowledge of the wants of the country, (which are different from most others.) I feel confident that I can and will do much for the interest of the agriculturists of this country; and in my efforts I trust I shall meet with a good share of patromage from the farmer, and all interested in this matter, and in the interest and development of the agricultural improvement of our State. I design, and have un-

1500 CAST STEEL CALIFORNIA DEEP TILLER OR QUEEN OF THE WEST PLOWS.

The mould board, the landside and shear are manufactured of cast steel, making the plow run much lighter than any plow ever used in this country. Also. GANG PLOWS, CULTIVATORS, HARROWS, FANN MILLS, &c., &c.
In addition to what I manufacture, I shall constantly be receiving implements from the best makers of the Eastern and Western States, amongst which are 500 CINCINNATI EAGLE STEEL & ROVER PLOWS. a shipment of which has just arrived. These plows stand, in point of true merit and worth, altogether higher than any others in the great agricultural State of Ohio.

Please favor me with a call and see for yours if, and be con vinced that I am publishing no humbug, but simply facts as they are, and that our young State can within itself already provide the farmer with implements inferior to none now in use.

Any article I manufacture will have all the latest improvements, and be finished to a workmantile manner.

All kinds of agricultural implements and machines repaired on short notice, and in the best manner, and on reasonable terms.
